Start of Early IT Microschool: August 19, 2024

End of Early IT Microschool: May 22, 2024

Spring Break: Each district has different dates for spring break. We will have students attend when they are in session to work on their internship/workforce project with the advisor when Metro is out for Spring Break. Students from Metro will work on their internship/workforce project when the other schools are on break so that there is no learning loss for any of the participants.

Virtual Sessions: Metro Schools have the following virtual days (remote learning) for the 2024-2025 school year. Each of these days will also be virtual for the Early IT students except November 5th (Election Day) and March 28th (Grandview Spring Break). Early IT will not be in session on November 5th or March 28th.
